We really believe that HERITAGE-P\*RC can change the red and white breed. His incredible milk yield and flawless linear pattern make him a great cross for so many red cows in today's world. Use him on all your Apple bloodlines as well as Unstopabull-Red, Rompen-Red, Rager-Red, Rubels-Red, and Showtime\*RC. Don't be afraid to add the red and polled genes to your Lambda and Alligator daughters as well!
