SIRI

Haveadream X Glenirvine Unix Sally EX-96

Unix Sally has been a sweetheart of the show ring for the past several years. She entered the scene in 2021 as a milking yearling, earning Reserve All-American and All-Canadian honors and then has continued her winning ways year after year. We think her moderate frame, great mobility and fantastic udder are exactly what we want and were thrilled when our friends at Milk Source agreed to mate her to Doc 8784s son by Energy, Have a Dream, who is making stylish fancy calves. We plan to use SIRI on our Lambda, Alligator and Chief bloodlines.
